churchill recovery solutions

crs offers a professional and comprehensive range of pre-legal debt recovery services and trace investigations. At crs no matter whether its one instruction or multiple instructions, crs will provide bespoke collection and investigation services with a guaranteed **No Collection or Trace - No Fee** commitment. crs is licensed by the Office of Fair Trading and works for both public and private sector markets offering a straightforward transparent service, with no hidden costs or charges.

**our collection and investigation strategy is guaranteed:
No Collection or Trace - No Fee**

Our business strategy is to provide you a service that you want, a service that reacts immediately with dedicated account managers as single points of contact, a service that starts the process within 24 hours of the instruction being received, a service that is fast, efficient and effective. crs works in partnership with a network of accredited agents throughout the UK and Europe. At crs you'll find a flexible plain speaking approach with specialist departments for debt recovery and investigation requirements. At crs we understand the need to trace and collect outstanding debts quickly and our range of modern intelligence gathering services are tailored to individual client needs.

where experience counts

debt

The need to forecast and manage cash-flow is critical to any business. At crs we provide an experienced letter-telephone operation, producing individual client specific staged letters supported by a large UK telephone collection team, operating 6 days a week.

crs can fast-track accounts and create a recovery service, that suits your needs.

crs accepts and processes any debts at any value, we can also help you with debts previously unsuccessfully recovered and arrears at the write-off stage. crs is also able to appoint solicitors and act on your behalf for litigation recovery.

Our experienced collection teams start the process with a letter before launching calls into the individual/company, whilst also dispatching further collection letters throughout the recovery action. crs is also able to provide national doorstep collections.

trace

crs provide clients a wide range of investigation services, from standalone traces through to financial asset profile reporting and credit/risk scoring. Working with intelligence and UK/European partners, crs provides the full spectrum of gone-away services at best value and with a commercially low recheck percentage.

20% of people opt out of being included on the voter's roll.

All positive trace reports are supplied with two independent verifications sources and are produced in easy to read format reports. Trace turn-around is determined by your requirements with crs able to fast-track instructions within 72 hours and our standard trace investigations being completed within 28 days. However our dedicated account managers will work with you, so whatever you require, crs can deliver.
